Re: Exhibit 4

I-JOBS Application – Local Infrastructure Competitive Grant Program
Wastewater Treatment Plant Flood Mitigation
City of Anamosa

Gentlemen:

This is to certify, on behalf of the applicant, that the proposed project design and construction shall meet the current state building energy code.

It is our intent to design to the Energy Star standards. However, since the Energy Star approval process requires post-construction monitoring plus evaluation by a third party, it is not possible to certify with certainty that the project will receive an Energy Star.

Yours truly,

David A. Stoklasa, PE.
